PROFESSIONAL SUMMARY

Motivated Bachelor of Computer Applications (BCA) student with a strong foundation in programming, software development, database management, data visualization, and computer networks. Hands-on experience in mobile application development, software testing, technical documentation, and full-stack project development gained through an internship and academic projects. Skilled in Flutter, Python, and Power BI, with strong analytical, problem-solving, communication, and teamwork abilities, and a genuine interest in continuously learning and applying new technologies.

EDUCATION

Bachelor of Computer Applications (BCA) **Expected Graduation: 2027**
De Paul Institute of Science & Technology, Kerala, India

TECHNICAL SKILLS

Programming Languages: Python, Dart, C, Java, SQL
Mobile App Development: Flutter
Backend Development: Node.js, Express.js
Databases: MongoDB, MySQL
Data Visualization & Analysis: Power BI
Tools & Platforms: Android Studio, VS Code, Git, GitHub
Core Concepts: Object-Oriented Programming, Data Structures, Database Management, Software Development Lifecycle, REST APIs, Data Analysis

INTERNSHIP EXPERIENCE

Software Development Intern — Teqard Labs Private Limited **Apr 2026 – May 2026**

- Assisted in the design and development of Android application features, contributing to core functionality and user interface improvements.
- Performed debugging and testing of application code to identify and resolve issues, improving overall software reliability.
- Participated in software and device testing cycles to ensure functionality met quality standards.
- Contributed to technical documentation and supported ongoing development activities within a collaborative team environment.
- Worked with industry-standard development tools and version-control platforms in a professional setting.
- Strengthened problem-solving, communication, analytical, and teamwork skills through real-world project involvement.

PROJECTS

Smart Expense Tracker App

Technologies: Flutter, Dart, Node.js, Express.js, MongoDB

- Developed a full-stack mobile application enabling users to track personal expenses and financial activity.
- Implemented secure user authentication and data management using MongoDB and Express.js.
- Built core functionality for adding, editing, deleting, and categorizing expenses.
- Integrated due-payment tracking with reminder and notification features to improve user engagement.
- Designed expense analysis and reporting features to deliver spending insights.

To-Do App

Technologies: Flutter, Dart

- Built a task management mobile application supporting task creation, editing, deletion, and completion tracking.
- Designed an intuitive, user-friendly interface to enhance usability and productivity.
- Applied core Flutter development concepts and performed testing and debugging to ensure reliable performance.

Data Visualization Using Power BI

Technologies: Power BI

- Createdinteractivedashboards and reports to analyze and present data effectively for decision-making.
- Performed data cleaning, transformation, and analysis to uncover meaningful insights.
- Developed visualizations using charts, maps, tables, and other interactive visual elements.
- Built calculated columns and measures to support data analysis and reporting.

TRAINING

Power BI Add-On Course — NeST Digital Academy **2026**

- Completedaone-weekindustry immersion/add-on course focused on Power BI.
- Gained hands-on experience in data analysis, data visualization, dashboard creation, and reporting.

CERTIFICATIONS

- Crash Course on Python — Coursera (2025)
- Using Python to Interact with the Operating System — Coursera (2026)
- Use of Generative AI for Software Development — IBM SkillsBuild
- AI in the Creative Era — Certificate Program

ACHIEVEMENTS & ACTIVITIES

- Presented a paper titled "Artificial Intelligence in Autonomous Vehicles: A Case Study" at the International Conference on Inclusive Imagination, January 2026.
- Participated in 3 inter-college coding competitions.
- Participated in National Service Scheme (NSS) programs, including an initiative to digitalize the CSA Library.
- Taught school students as part of the "Each One Teach One" program conducted by the School of Professional Development.
- Active member of the department association, participating in academic and student activities.
